# INTRODUCTION AND GENERAL INDEX

---

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Winston-Salem City Directory since 1932), present to subscribers and the general public, this, the 1955 edition of the Winston-Salem City Directory, which also includes City View, Hanes, Montview and Park Terrace.

Confidence in the continued growth of Winston-Salem's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Winston-Salem to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Winston-Salem Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments (Each department beginning with Page 1)

The five major departments are arranged in the following order:—

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that shows the name, marital status, occupation and address of each adult resident of Winston-Salem and vicinity, and the name, official personnel, nature and address of each firm and corporation.

II. THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Winston-Salem. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Winston-Salem, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fifth major department.

## Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Winston-Salem and vicinity.

## The Winston-Salem Directory Library

Through the courtesy of the publishers of the Winston-Salem City Directory, a Directory Library is maintained in the offices of the Winston-Salem Chamber of Commerce for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

## HISTORY

Rich and varied is the history of Winston-Salem, for the city of today is the product of two centuries of constructive, planned growth.

In 1752-53 a small group of Pennsylvania Moravians, a Protestant denomination of Bohemian origin, carefully selected and bought a large tract of land in Piedmont Carolina at the three forks of the Yadkin River. They named the tract "Wachovia" after the Austrian estates of Count Nicholas Louis von Zinzendorf, an early protector-patron of the sect. Two settlements were established, Bethabara in 1754 and Bethania in 1759. In 1766 a new settlement was carefully laid out in the center of the Wachovian tract and built according to definite plans. The tranquility-loving Moravians named their new town Salem, meaning "peace."

The small town grew rapidly under the care of the industrious fathers. A water system was established and dwellings, stores, and shops built. Embryonic industries included weaving, tanning, dyeing, baking, and the making of roofing tiles, ornamental tile stoves, clay smoking pipes, and candles. Tobacco was even then an important crop. The fathers consecrated a graveyard, "God's Acre," and founded a girls' school which has developed into the Salem Academy and College of today.

The Revolutionary War brought to the thriving town Nathanael Greene's soldiers, and in 1781 Cornwallis passed through Salem. The years after the war until the middle of the 19th Century were marked by such events as the establishment of the Nissen Wagon Co. in 1787; a visit from George Washington in 1791; the dedication of the Home Moravian Church in 1800; the first edition of Blum's Almanac in 1828; and the opening of the first bank in 1847. Cotton and wool manufacturing companies had been organized, and Salem by 1850 was a prosperous center of religion, learning and industry.

By an act of legislature in 1849, Forsyth County was created from Stokes County. The county seat was established one mile north of Salem Square. In 1851, again by act of legislature, the new county seat was named "Winston" in honor of Major Joseph Winston, Revolutionary War hero. Salem was incorporated in 1856; Winston in 1859.

Winston developed rapidly as an industrial center and market. The year 1872 saw the first tobacco auction and the opening of the first tobacco factory. In 1885 the Chamber of Commerce of Winston and Salem was organized by far-sighted leaders who realized that together the two towns must build for the future. By the time of consolidation, Winston was already known for its textiles, hosiery, blankets, knit goods, tobacco products, and tobacco market.

In 1913, by popular vote, Winston and Salem were consolidated as Winston-Salem, the "Twin City." The new city took as its motto "Urbs Condita Adiuvando," meaning "A City Founded Upon Co-operation." This motto puts into modern phraseology the old Moravian concept of "Unitas Fratrurn," "A Unity of Brethren."

Winston-Salem today is the leading industrial city of North Carolina and one of the South's leading industrial cities. The annual value of Forsyth County's manufactured products is over \$1,000,000,000. The best of the old and the best of the new blend to make a progressive city still marked by a deep religious atmosphere, a love for music and arts, and a zeal for broad educational development. As did their fathers of yesterday, far-sighted citizens of today build always for the greater city of tomorrow.

It is here that the opening scene of the Moravian early Easter morning service is held. This Easter Service, one of the most widely known religious services in America, has been held for over 150 years, and attracts from 30 to 40 thousand visitors annually.

God's Acre, or Moravian Graveyard, S. Church St., contains more than 3,000 graves, all having similar, flat markers to symbolize the brotherhood and equality of man. There are no family plots. The graveyard has been used by Moravian congregations in the city since 1771, and is the closing scene of the Moravian Easter Service.

Brothers' House, 600-04 South Main St., 1769 and 1786, is the second oldest house still standing in Salem. It was here that the young boys of the community went to learn their trades. Building is now the Moravian Church Home.

Sisters' House, Salem Square, 1786, housed the single sisters of early Salem. House is now used as a dormitory for Salem College.

John Vogler House, 700 S. Main Street. House built in 1819 by a silversmith and clockmaker, is a refinement of the traditional architecture of 18th Century mid-European domestic architecture which was used in early Salem. House is being made into a House Museum as a part of the restoration program.

"Fourth House", 450 S. Main St., erected in 1767, is the oldest building still standing in Salem. Was home of an early saddlemaker. The house was restored in 1940 by the Forsyth County Committee of Colonial Dames, and is now rented.

Belo House, 455 S. Main Street. Handsome antebellum mansion with Corinthian columns and elaborate iron grille, was erected by Edward Belo in 1849. Belo conducted a store on the main floor of the building, and his dwelling was on the second story. Building was at one time used as an Inn. Now belongs to Moravian Church and is an apartment house for ladies.

Salem College and Academy, Salem Square, is one of the first Girls' Schools in the South, and is oldest in continuous operation. Established by the Moravians as a day school in 1772, it became a boarding school in 1802. The college buildings on a 50-acre campus, are designed in the characteristic mid-European domestic architecture, prevalent in Salem.

#### In the Downtown District

City Hall, N. Main St., is built on the original dividing line between Winston and Salem.

Forsyth County Court House is on the Court House Square in the center of the downtown district.

Reynolds Office Building, N. Main at 4th St., is North Carolina's tallest office building.

The R. J. Reynolds Tobacco Co., in the vicinity of Church and 5th streets, is open to visitors for guided tours. Here one may see Camel cigarettes and Prince Albert smoking tobacco being produced; both products are made only in Winston-Salem. Information about the guided tours may be obtained at the Reynolds Office Building.

The tobacco warehouses, in the vicinity north of the Post Office between Oak and Patterson streets, are open from late September through January. Here the chant of the auctioneer, the pungent smell of ripe tobacco, and the steady hum of warehouse activity combine to provide one of America's most colorful marketing scenes.

**Out of Sight — Out of Mind — Out Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

**Out of Sight — Out of Mind — Out Business**  
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.  
The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

## Out of Sight - Out of Mind - Out Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however marketed, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.
